

RGEC INCLEMENT WEATHER POLICY

Dear Parents and Families,

When bad weather delays or cancels school, RGEC Before/After School Programs are impacted. This will of course impact your child. We want to prepare your family for a weather event, so you are both aware and knowledgeable early on giving opportunity to plan accordingly.

Here Is How:

- * When school districts have two-hour delay start times, there are no RGEC Before School programs.
- * When schools are canceled, there are no RGEC Before or After School Programs.
- * When school districts release students early from school due to weather or unforeseen circumstances, there are no RGEC after-school programs.

The difficulty RGEC faces during these times is reflected in the fact schools are closed and therefore inaccessible to our program staff. This in turn prevents us from offering our program. We apologize for this inconvenience; however, we simply have no alternative.

RGEC follows all Albuquerque, Moriarty-Edgewood, Belen, and Socorro school district policies regarding weather delays and cancellations. If you would like to review this information, it can be found in the Parent-Student Handbook.

Thank you for your patience and thank you for choosing RGEC.
