

SUPER HEROES ADVENTURES

Superhero Week is designed to engage students in creativity, teamwork, and personal growth through the exciting theme of heroes and community helpers. Throughout the week, students will explore what it means to be a hero by identifying positive character traits such as courage, kindness, responsibility, and leadership.

Students will connect the concept of superheroes to real-life community heroes, learning about the important roles people play in helping others. The week concludes with a showcase where students present their superhero creations and reflect on how they can be everyday heroes in their own lives.
